About Me

Hey there, I'm Spiros and I am an undergraduate student in the Department of Informatics of the Ionian University.

My interests include, but are not limited to, gaining experience in the following areas:

- Networking (Firewalling, SDWAN)
- Web development (e.g. React or Angular)
- E-shop Frameworks (e.g. WooCommerce or Magento)
- Mobile development (iOS only)
- End-to-end testing suites (e.g. puppeteer)

Technical skills are not the only area I have developed through my experience. My peers describe me as a valuable team member, who knows how to work under strict deadlines and provide quality results.
