About Me

Hi, I'm Spiros — a Systems Administrator and graduate of the Department of Informatics at the Ionian University.

After building a solid foundation in Networking (Cisco, MikroTik, Ubiquiti) and Systems Administration (Windows/Linux/macOS), I am deepening my expertise in modern DevOps and automation practices.

Currently, I'm actively working with and exploring further technologies such as:

- Automation (Ansible / n8n)
- Docker Container Orchestration (Nomad/Kubernetes)
- Infrastructure Orchestration (Terraform)
- Pipelines (Jenkins)
- Cloud Services (AWS/OCI)

Technical skills are not the only area I have developed through my experience. My peers describe me as a valuable team member, who knows how to work under strict deadlines and still provide quality results.

Experience

System and Network Administrator

Freelance, Athens GR

06/2021 -Present

- Network Design, Implementation and Support.
- Virtualization and Containerization.
- Fileserver and Remote Backup Solutions.
- Cloud Hosting.
- Pipeline Implementation and Maintenance.
- System & Network Automation

ICT Engineer

Marpoint Ltd, Marousi GR

04/2023 - Present

- Configuration and Maintenance of Networking Equipment (Routers/Switches/APs/4G-5G Antennas)(Mikrotik /Ubiquiti)
- Network Architecture Design and Installation.
- Windows Server Configuration, Installation, Maintenance and Troubleshooting.
- Active Directory.
- Virtualization (Proxmox)
- Docker Containers.
- Automation (Ansible/Rundeck).
- Creation of detailed technical documentation for project implementations and integrations.
- Technical Support.

Systems and Network Administrator

Intercompass MPD, Glyfada GR 03/2022 - 03/2023

- Network Design, Deployment and Administration (Mikrotik/Cisco).
- Systems Administrator. (WHM CPanel/Direct Admin/Microsoft 365/Proxmox/Synology/Exchange).
- Comprehensive project documentation deployment.

Network Management

NET 7, Corfu GR

01/2020 - 02/2022

- WISP Network Manager (Ubiquiti/Mikrotik).
- Customer Support (UISP CRM).

Network Management/IT Support

Messinian Networks, Kalamata GR

06/2016 - 12/2019

06/2021 - 11/2022: Customer IT and Network Support (call center)
(Kalamata). (UISP CRM/NMS)

09/2016 - 06/2021: IT & Network Support Engineer (Outsourcing to clients)
(Mikrotik/Synology/VMware)

06/2016 - 08/2016: Training on Network Installations and IT Support.

Education

B.Sc.Informatics

Ionian University, Corfu GR

10/2015-09/2023

Specialization in Information Systems.

Thesis: Deployment of Web Application for Diabetes Patient Registry Management

Main courses follow:

- Electronic Commerce/Information Systems and Supply Management.
- Analysis and Design of Information Systems/Strategic Management of Information Systems
- Software, Application, Communications and Network Security/Information System Security Management.
- Information Privacy Policies and Enhancing Technologies/Social and Legal Issues of ICTs.

Certifications

- MikroTik Certified Network Associate (28/05/2023 - 28/05/2026) .
- MikroTik Certified Routing Engineer (01/09/2024 - 01/09/2027).
- MikroTik Certified User Management Engineer (14/04/2025 - 14/04/2028)
- Examination for the Certificate in Competency in English (ECCE) Michigan University.

A Little More About Me

Apart from my job's related interests I'm keen on:

- Traveling
- Audiophilism and Vinyl Records
- MotoGP
